

T DHANAKODI

PYTHON FULL STACK DEVELOPER

8838339954 • dhanakodithirumurugan7481@gmail.com • linkedin.com/in/t-dhanakodi-dev • github.com/dhanakodi7481

PROFESSIONAL SUMMARY

Python Developer with professional experience across backend engineering, full-stack web development, and GenAI/LLM application development. Skilled in Python, Django, Django REST Framework, JavaScript, React.js, and MySQL for building scalable, database-driven applications and REST APIs. Hands-on experience designing GenAI features using the Google Gemini API and other LLM APIs — including AI-powered code review, resume analysis, and interview-preparation tools — with strong grounding in prompt engineering, API integration, authentication, and production deployment.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), SQL, Java, HTML5, CSS3

Backend: Django, Django REST Framework, REST API Development, Authentication & Authorization

Frontend: React.js, JavaScript, Bootstrap, Responsive Web Design

AI / LLM: Google Gemini API, LLM API Integration, Prompt Engineering, Generative AI, RAG, Embeddings, Vector Databases, LangChain, AI Agents, AI Application Development

Database / Tools: MySQL, Git, GitHub, Docker, Postman, VS Code, CI/CD Basics

Core: OOP, Data Structures, Agile/Scrum, ATS Optimization

PROFESSIONAL EXPERIENCE

Full Stack Developer | Achudha Enterprises Private Limited, Hosur, India | Apr 2025 – Present

- Develop and maintain full-stack web applications using Python, Django, HTML, CSS, and JavaScript, focusing on responsive UI and maintainable backend workflows.
- Design and implement REST APIs using Django REST Framework for frontend applications and third-party integrations.
- Develop database-driven features using Django ORM and MySQL, including CRUD, filtering, validation, and application workflows.
- Implement authentication, authorization, OTP verification, password-reset workflows, and session-based access control.
- Build recruitment-platform features including job posting, candidate search/filtering (title, company, location, technologies, experience), applications, employer dashboards, and resume/CV handling.
- Integrate third-party services and APIs, including communication, payment, and AI/LLM-based functionality; troubleshoot database, API, migration, security, and deployment issues.

Junior Engineer – ITES | Chandusoft Technologies Private Limited, Hosur, India | Feb 2024 – Mar 2025

- Provided technical support and troubleshooting for IT-enabled service operations and application workflows.
- Investigated operational issues and supported reliable day-to-day system operations.

KEY PROJECTS

AI-Powered Code Review & Bug Detection Platform | Python, Django, Django REST Framework, React.js, Google Gemini API, MySQL, Docker

- Built a full-stack platform that analyzes uploaded code using LLM-based static analysis to detect bugs, security vulnerabilities, and code-quality issues in real time.
- Designed REST APIs with DRF to handle code submissions, trigger AI review pipelines, and return structured findings with severity levels and suggested fixes.
- Implemented automated PR summaries via the Gemini API and a React.js dashboard for review history and code-health scores; containerized services with Docker.

AI-Powered Interview Preparation Platform | Python, Django, Django REST Framework, React.js, Google Gemini API, MySQL

- Built a full-stack platform that generates role-specific and company-specific mock interview questions using the Google Gemini API based on a candidate's resume and target job description.
- Implemented answer evaluation using LLM-based scoring across technical accuracy, clarity, and confidence, with structured feedback after each response.
- Built REST APIs with DRF for session management, question banks, and progress tracking; developed a React.js interface with timed responses and performance dashboards.

FirstJobGo — Recruitment & Job Portal | Python, Django, Django REST Framework, React.js, JavaScript, MySQL

- Developed recruitment workflows for job seekers, employers, and administrators, including job posting, candidate search, applications, profiles, and dashboards.
- Implemented OTP-based authentication, password reset, candidate filtering, resume/CV handling, and employer candidate-collection workflows.
- Built backend APIs and database-driven features with Django, DRF, and MySQL; worked on subscription-based candidate access limits and production debugging.

AI Resume ATS Score Checker | Python, Django, Google Gemini API, REST API

- Built an AI-powered resume analyzer using Django and Google Gemini API for ATS-oriented scoring, resume analysis, and personalized job recommendations.

E-Commerce Web Application | Python, Django, MySQL, Bootstrap, Payment Gateway API

- Developed a database-driven e-commerce application with authentication, responsive UI, MySQL-backed workflows, and payment gateway integration.

EDUCATION & CERTIFICATIONS

B.E. Electronics and Communication Engineering — Gnanamani College of Technology, Anna University | Aug 2019 – Jun 2023 | CGPA: 7.8

Master in Full Stack Python Developer — Apollo Computer Education Ltd. | Feb–Dec 2024

Java Programming — Computer Institution | **IBM Project Certification** — IBM | 2022–2023

INTERNSHIPS

Full Stack Web Developer — TECHPLEMENT (Jan 2025) • Full Stack Web Development — CODTECH IT SOLUTIONS (Oct 2024) • Python Programming — CODTECH IT SOLUTIONS (Oct 2024)
